About Us

We are Learn and Build (LnB), an Employee Tech vertical by TechieNest Pvt. Ltd. Furthering our 10+ years of strong legacy and training over 75K students from 350+ premium institutions including IIT's & NIT's and 200+ Associate Hiring Partners. LnB aims at bridging the future skills gap between Industry and learners.

Our Mission

Our mission is to provide technology enthusiasts with the core skills that the current industry needs, enabled through our hands-on practical training approach.

Our Vision

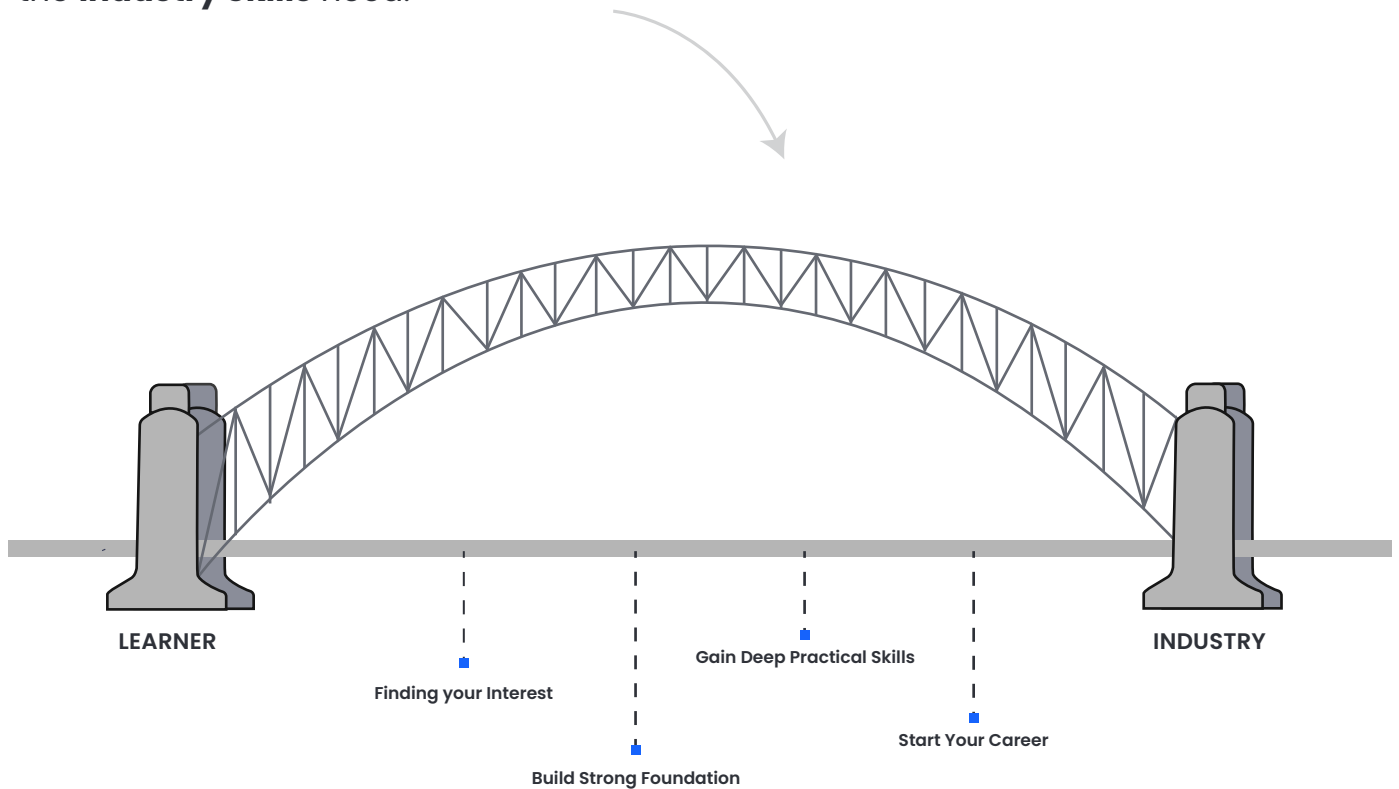

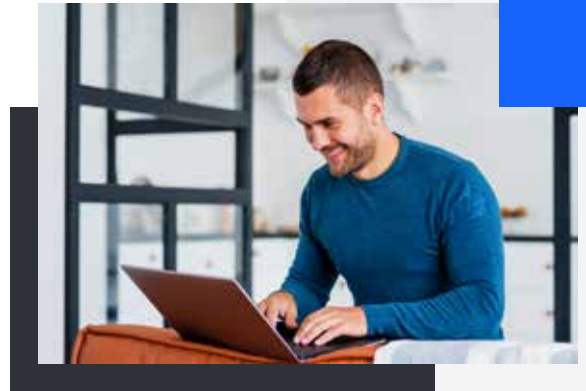

Our vision is to become a global market leader in technical education space and to churn out the best talent that the industry needs.

How Are We **Unique**

We believe that you should **Find Your Interest** in any technology domain first and then you should excel in that domain to **Build a Career** and get **Core Jobs**.

Therefore, any domain you choose, we'll take you and guide you for the entire domain Step by Step from Starting till You **Achieve Excellence** in that domain as per the **Industry Skills** need.

Benefits

- **Affordability -**

No need to invest a lot of money in building your interest to achieve excellence.

- **Profile Building -**

You can build your profile on the platform and use that as your resume to share with recruiters.

- **Profile Matching -**

We help you match your profile with the companies' profiles and inform you of any gaps.

- **Confidence -**

With technology skills and evaluation you build a confident career, not for today but for the future.

- **Certification -**

Any level you clear or any program you complete, you'll be awarded with the certifications.

- **Internships & Placements -**

We build a portal to help you provide Internships and Placement opportunities.

Features

- **Basics to Advance Learning**

Learn complete Technology from starting to advance at one place only.

- **Hybrid Learning**

You can Learn at your own pace & resolve your doubts on weekends in Live Sessions.

- **Hands-on Practicals**

The entire learning curve is practical, where you learn and implement ideas and build Projects.

- **Structure & Guided Programs**

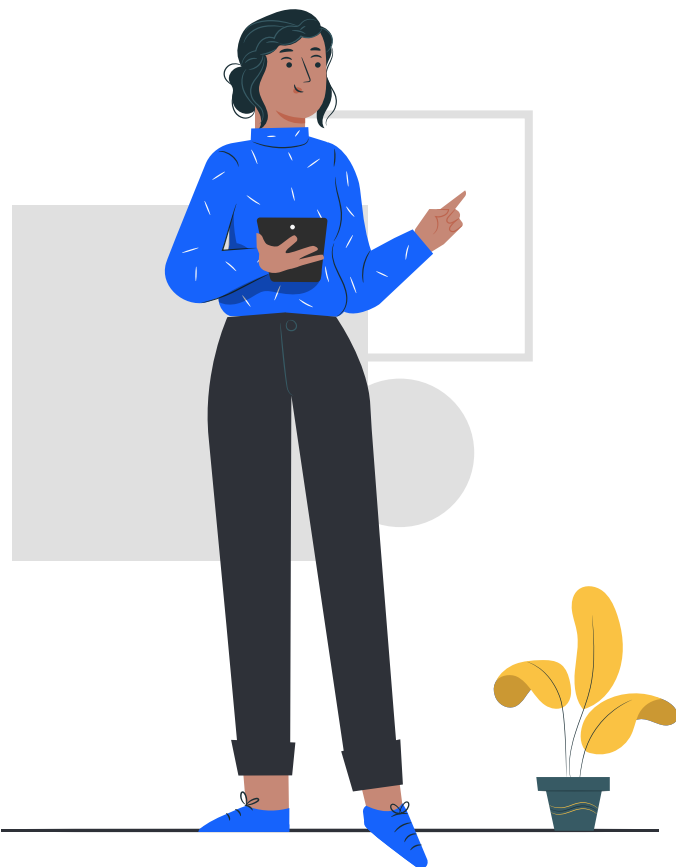

Every topic is structured properly, in order to provide you clarity of the learning curve.

- **Evaluate Yourself**

We encourage you to access your learning status at every stage while giving assessment & checking the leaderboard.

- **Community**

We build close communities to help you engage and compete with other fellows around the world.

Student Testimonials 4.7/ 5 Star Rating

Sumit Singhal ★★★★★

Amazing place to enhance our skills and experience.

Chandra Shekhar ★★★★★

I did an Embedded Systems and Internet of Things course from Learn and Build. While Learning online, I was able to complete all my projects and now I'm glad that my learnings have helped me to get a Job. Thank you LnB for giving me such an opportunity.

Tamanna Mahnot ★★★★★☆

A great place to learn new technologies. Mentors put in a lot of efforts to make you understand the concept properly.

Ankit Kumar Sharma ★★★★★

The projects are designed in such a way to become industry ready. Experts are taking sessions with dedication & always ready to resolve any technical issues.

Pradip Gonjari ★★★★★

I highly recommend "Learn and Build" as your "Go-To Learning Platform."

Sameer Sachdeva ★★★★★

The curriculum, hands on or simulation training is well organised too.

Namita Lamba ★★★★★

The most amazing thing about the training is that you can work on live projects.

“We ensure quality education and our learners speak about it.”
